

Electric Vehicle Conversion Workshop

sponsored by Bucks County Renewables in association with ActionPA and the Energy Justice Network

June 22 - 26, 2009

8:30 – 4:00 p.m. M - F

at

North Montco Technical Career Center

1265 Sumneytown Pike

Lansdale PA 19466

This five-day, hands-on course will allow participants to convert an existing ICE (internal combustion engine) vehicle into a full-fledged BEV (battery electric vehicle) under the guidance of an experienced instructor. The course is intended for automotive technology instructors and general subject teachers, as well as EV enthusiasts and environmentalists in the general public. If you want to deepen your understanding of battery and electric drive technology, or if you've ever wanted to perform your own EV conversion, this course is for you! All participating teachers will receive Act 48 Continuing Education credits and will have the opportunity to share and develop classroom activities implementable in the 2009-10 school year. The course fee of \$300 includes the textbook *Convert It!*, a step-by-step hands-on guide to converting a small compact car.

Questions? Email info@buckscountyrenewables.com

or call Jennifer Isaacs at 610-847-4908

Please return your registration form as soon as possible, as space in the workshop is limited.
